

The Family Resource Center Association (FRCA) supports the work of 33 member Family Resource Centers across Colorado. FRCA offers two membership options: Premium and Standard. All members, regardless of membership level, provide services in their communities in accordance with FRCA's [Family Pathways Framework](#). Premium Members enter output and outcome data into FRCA's shared data system. This additional membership responsibility has advanced development of FRCA's unique model of family support services, evaluation and rigorous testing for the benefit of the entire membership and the family support field. Premium Members receive a model fidelity score twice annually and are eligible for an annual center-level evaluation report from a third-party evaluator.

FRCA currently supports 24 Premium Members and 9 Standard Members:
