

FRCA supports the work of 33 Member Family Resource Centers across Colorado. FRCA offers two membership options: Standard and Premium. All members, regardless of membership level, provide services in their communities, in accordance to FRCA's Family Pathways Framework including Family Development Services (FDS). Premium Members enter output and outcome data into FRCA's shared data system. This additional membership responsibility has advanced FRCA's model development, evaluation, refinement, and rigorous testing for the benefit of the entire membership and the family support field. Premium Members receive a model fidelity score twice annually and are eligible for an annual center-level evaluation report from a third-party evaluator.

FRCA currently supports 9 Standard Members and 24 Premium Members throughout Colorado.
