

Colorado Fatherhood Initiative Report - 2020

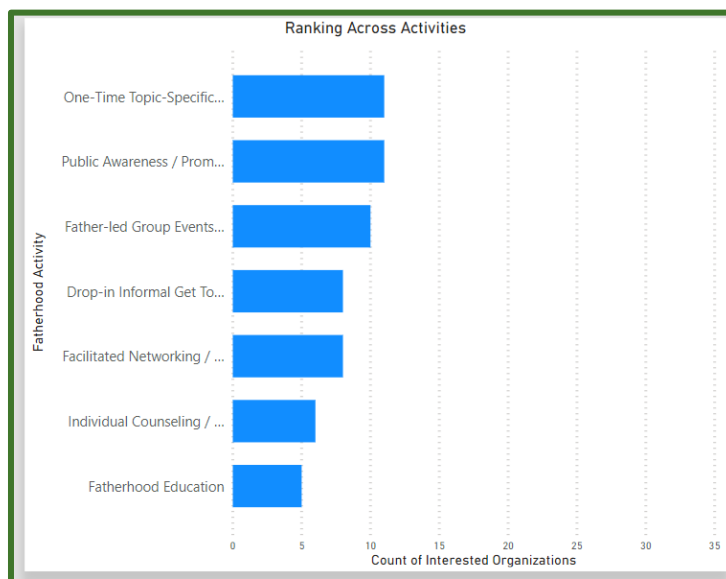

County Child Service Offices

The Family Resource Center Association conducted a statewide inventory of fatherhood services in the Fall of 2020 in their role as the Fatherhood State Intermediary to help plan the best way to strategically move this important initiative forward. The County Child Support Offices known to provide father-specific programs were invited to participate in this effort. Twenty-Four CCSOs completed a survey that indicates 11 of those offices, serving 14 counties, are currently providing fatherhood services as seen below. Of the 24 which responded, the second figure indicates the number that would be interested in providing services if all barriers were removed:

CURRENT SERVICES

ORGANIZATIONS INTERESTED IN PROVIDING SERVICES

NETWORK SUPPORTS

FRCA will provide network supports to all organizations providing fatherhood programs in Colorado. On average, over 80% of the 24 CCSOs that responded to the survey indicated that communication and program implementation support were important network supports to their organizations with all of the remaining supports important to about 70% of the organizations.
